

TLT Primary Air Fan In Thermal Power Plant With Movable Blades PAF19.5-13.3-2

Our Product Introduction

Basic Information

- Place of Origin: Shanghai
- Brand Name: YIKU
- Model Number: PAF19.5-13.3-2
- Minimum Order Quantity: 1 piece
- Price: negotiable
- Packaging Details: Wooden box
- Delivery Time: 2-3month
- Payment Terms: L/C, T/T
- Supply Ability: 2 units/month

Product Specification

- Name: Primary Air Fan
- Model: PAF19.5-13.3-2
- Purpose: Conveying Air To The Pulverizing System
- Impeller Diameter: 1950mm
- Hub Diameter: 1330mm
- Progression: Double Stage Impeller
- Highlight: **Movable Blades Primary Air Fan,
Movable Blades tlt fan,
Thermal Power Plant tlt fan**

Product Description

PAF18-12.5-2 Maintenance of rotor of adjustable axial flow primary fan with movable blades

一次机:(以中速磨煤机,直吹式制粉系 例)一次机提供一次,从机出来分路,一路空器后叫做一次,一路不空器的叫冷一次.其中,一次磨煤机提供干燥出力 and 通出力,将磨煤机磨好的煤粉干燥后携煤粉入到炉燃器.冷一次与一次在磨煤机的入口行混合,起到磨煤机入/出口温度的作用,同也是磨煤机通出力的一部分.

Primary fan :(taking medium speed coal mill and direct blowing pulverizing system as an example) Primary fan provides primary air, which is divided into two ways from the fan. One way is called hot primary air after passing through the air preheater, and the one that does not pass through the air preheater is called cold primary air. Among them, the hot primary air provides the drying power and ventilation power for the coal mill, and carries the pulverized coal into the boiler burner after drying. The cold primary air and hot primary air are mixed at the entrance of the mill to regulate the inlet/outlet temperature of the mill, and are also part of the ventilating output of the mill.
