

560mm Cylinder Sleeve for TLT Axial Fans

Basic Information

- Brand Name: Hydraulic Cylinder of TLT Axial Fan

Product Specification

- Total Length: 560mm
- Type: Cylinder
- Applicable To: Hydraulic Cylinder Sleeve
- Purpose: Positioning And Connection
- Diameter: $\phi 415$
- Material: Steel
- Surface Treatment: Painting
- Color: Black

Product Description

Product Description:

The cylinder has a diameter of $\phi 415$, which is ideal for use in the TLT Axial Fan. It has a black color that complements the overall appearance of the fan. The overall dimensions of the hydraulic cylinder are $\phi 490 \times 270$, making it easy to install and integrate into the fan system.

The Hydraulic Cylinder of TLT Axial Fan plays a crucial role in the fan's functioning. It helps convert the hydraulic energy into mechanical energy, which is used to power the fan. The hydraulic cylinder provides a smooth and efficient movement, ensuring that the fan works seamlessly and effectively.

The Hydraulic Cylinder of TLT Axial Fan is designed to withstand high pressure and heavy loads, making it a reliable component of the fan system. It is also easy to maintain and repair, ensuring that the fan can operate at maximum efficiency.

In conclusion, the Hydraulic Cylinder of TLT Axial Fan is an essential component of the fan system. Made from high-quality steel material and painted for protection, it ensures durability and longevity. With a diameter of $\phi 415$ and black color, it complements the overall appearance of the fan, while its overall dimensions of $\phi 490 \times 270$ make it easy to install and integrate into the system. The hydraulic cylinder plays a crucial role in converting hydraulic energy into mechanical energy, ensuring that the fan works seamlessly and effectively. It is designed to withstand high pressure and heavy loads, making it a reliable component of the fan system.

Features:

Product Name: Hydraulic Cylinder Parts of TLT Axial Fan

Diameter: $\phi 415$

Total Length: 560mm

Overall Dimensions: $\phi 490 \times 270$

Journey: 100

Applicable To: Hydraulic Cylinder Sleeve

This product is the Hydraulic Cylinder of TLT Axial Fan and is designed to meet the specific requirements of this fan. It has a diameter of $\phi 415$ and a total length of 560mm, making it a perfect fit for the fan. The overall dimensions of this hydraulic cylinder part are $\phi 490 \times 270$, which ensures a secure and stable fit to the fan. With a journey of 100, this product is ideal for the Hydraulic Cylinder Sleeve of TLT Axial Fan.

Technical Parameters:

Application	Axial Fan
Diameter	$\phi 415$
Total Length	560mm
Surface Treatment	Painting
Applicable To	Hydraulic Cylinder Sleeve
Material	Steel
Color	Black
Purpose	Positioning And Connection
Overall Dimensions	$\phi 490 \times 270$
Journey	100

Applications:

The Hydraulic Cylinder of TLT Axial Fan is a versatile product that is suitable for various applications. It is commonly used in the following scenarios:

Industrial Machinery: The Hydraulic Cylinder of TLT Axial Fan is perfect for use in industrial machinery. It can be used to move heavy loads and provide precise positioning, making it an essential component in many manufacturing processes.

Construction Equipment: The Hydraulic Cylinder of TLT Axial Fan is also commonly used in construction equipment. It can be used to lift and move heavy materials, making it an invaluable tool on construction sites.

Agriculture: The Hydraulic Cylinder of TLT Axial Fan is also used in the agricultural industry. It can be used to power hydraulic equipment and control the movement of agricultural machinery.

Automotive: The Hydraulic Cylinder of TLT Axial Fan is also used in the automotive industry. It can be used to control the movement of car doors and windows, and to power various automotive systems.

The Hydraulic Cylinder of TLT Axial Fan is a reliable product that can be used in a wide range of applications. Its high-quality construction and durable surface treatment make it an ideal choice for positioning and connection needs.

Packing and Shipping:

Product Packaging: The hydraulic cylinder parts of TIT Axial Fan product will be packed in sturdy cardboard boxes to ensure safe transportation. The boxes will be labeled with the product name, company logo, and handling instructions.

Shipping: The hydraulic cylinder parts of TIT Axial Fan product will be shipped via trusted shipping carriers to ensure timely delivery and safe handling. Customers will receive a tracking number to monitor the status of their shipment.

FAQ:

Q: What is the brand name of the hydraulic cylinder used in TLT Axial Fan?

A: The brand name of the hydraulic cylinder used in TLT Axial Fan is Hydraulic Cylinder of TLT Axial Fan.

Q: What is the material used for the hydraulic cylinder of TLT Axial Fan?

A: The hydraulic cylinder of TLT Axial Fan is made of high-quality steel to ensure durability and long-lasting performance.

Q: What is the maximum working pressure of the hydraulic cylinder of TLT Axial Fan?

A: The maximum working pressure of the hydraulic cylinder of TLT Axial Fan is 250 bar.

Q: Does the hydraulic cylinder of TLT Axial Fan come with a warranty?

A: Yes, the hydraulic cylinder of TLT Axial Fan comes with a warranty of 1 year from the date of purchase.

Q: Can the hydraulic cylinder of TLT Axial Fan be customized to fit specific requirements?

A: Yes, the hydraulic cylinder of TLT Axial Fan can be customized to fit specific requirements. Please contact our customer support team for more information.
